Kualitas Organoleptik dan pH Litter Broiler yang Dipelihara di Kandang Closed House pada Ketinggian Dataran yang Berbeda

Cahya Setya Utama, Marry Christiyanto, & Ahmad Raiz Fauzi

Pengaruh Suplementasi Daun Bawang Merah (*Allium ascalonicum*) dalam Ransum Basal terhadap Performa Domba

Ryantoko Setyo Prayitno, Vita Restitrisnani, & Rasbawati

Identifikasi Keragaman Gen FSH Bagian Ekson 2 Menggunakan Enzim Restriksi *TasI* pada Sapi Pesisir

Tinda Afriani, Endang Purwati, James Hellyward, Jaswandi, Yurnalis, Mangku Mundana, Anna Farhana, & Adisti Rastosari

Evaluasi Keberlanjutan Pengembangan Kambing Kacang di Kawasan Pantura Kecamatan Insana Utara Kabupaten Timor Tengah Utara

Melkianus D. S. Randu, Defry R. Tulle, & Ferdinan S. Suek

Kualitas Gelatin dari Ceker Itik yang Diberikan Berbagai Konsentrasi Asam Asetat pada Proses Demineralisasi

Jajang Gumilar, Nurul Hasanah, & Kusmayadi Suradi

Respon Inseminasi Buatan (IB) dan Kawin Alami (KA) Kambing Perah Persilangan Peranakan Etawah dan Senduro terhadap Litter Size, Tipe Kelahiran, dan Rasio Jenis Kelamin Anak Per Kelahiran

Koko Wisnu Prihatin & Amam

Pertumbuhan Tulang dan Produksi Karkas Broiler yang Diberi Ransum Menggunakan Sumber Protein Mikropartikel dan Tepung Umbi Dahlia

Lilik Krismiyanto, Nyoman Suthama, Istna Mangisah, & Intan Safira Lubis

Pengaruh Penggantian Rumput Gajah dengan Solid Ex-Decanter dalam Ransum Ternak Sapi Potong terhadap Karakteristik Fermentasi Rumen secara In Vitro

Muhammad Ambar Islahuddin, Teja Kaswari, Heni Suryani, & Muhammad Afdal

DAFTAR ISI

Kualitas Organoleptik dan pH Litter Broiler yang Dipelihara di Kandang Closed House pada Ketinggian Dataran yang Berbeda Cahya Setya Utama, Marry Christiyanto, & Ahmad Raiz Fauzi	71-78
Pengaruh Suplementasi Daun Bawang Merah (<i>Allium ascalonicum</i>) dalam Ransum Basal terhadap Performa Domba Ryantoko Setyo Prayitno, Vita Restitrisnani, & Rasbawati	79-85
Identifikasi Keragaman Gen FSH Bagian Ekson 2 Menggunakan Enzim Restriksi <i>TasI</i> pada Sapi Pesisir Tinda Afriani, Endang Purwati, James Hellyward, Jaswandi, Yurnalis, Mangku Mundana, Anna Farhana, & Adisti Rastosari	86-95
Evaluasi Keberlanjutan Pengembangan Kambing Kacang di Kawasan Pantura Kecamatan Insana Utara Kabupaten Timor Tengah Utara Melkianus D. S. Randu, Defrys R. Tulle, & Ferdinan S. Suek	96-110
Kualitas Gelatin dari Ceker Itik yang Diberikan Berbagai Konsentrasi Asam Asetat pada Proses Demineralisasi Jajang Gumilar, Nurul Hasanah, & Kusmayadi Suradi	111-115
Respon Inseminasi Buatan (IB) dan Kawin Alami (KA) Kambing Perah Persilangan Peranakan Etawah dan Senduro terhadap Litter Size, Tipe Kelahiran, dan Rasio Jenis Kelamin Anak Per Kelahiran Koko Wisnu Prihatin & Amam	116-122
Pertumbuhan Tulang dan Produksi Karkas Broiler yang Diberi Ransum Menggunakan Sumber Protein Mikropartikel dan Tepung Umbi Dahlia Lilik Krismiyanto, Nyoman Suthama, Istna Mangisah, & Intan Safira Lubis	123-133
Pengaruh Penggantian Rumput Gajah dengan Solid Ex-Decanter dalam Ransum Ternak Sapi Potong terhadap Karakteristik Fermentasi Rumen secara <i>In Vitro</i> Muhamad Iqbal Safitra, Heri Dwi Putranto, & Bieng Brata	134-143

Author Guidelines

JURNAL PETERNAKAN

General requirements

1. The manuscript submitted has not been published as stated by the statement in the form attached.
2. The manuscript is the result of research, policy analysis or ideas with actual topics with the scope of farms.
3. The manuscript is written in Bahasa Indonesia or English. The Indonesian script is written following the Indonesian pronunciation general guidelines.
4. Submission of the manuscript in the form of a print (*hard copy*) and in the form of a floppy (*soft copy*) or electronic file.
5. Publishing Schedule is in February and September.

Standard Writing

Screenwriting in Bahasa Indonesia and/or English is typed with the word processing process MS Word or previous version, **Book type Antiqua**, single spaced, up to 15 pages of A4 paper (210 x 297 mm). Frame size (*frame*) of the manuscript: left 2.5 cm, right 2.5 cm, above 2.5 cm, under 2.5 cm.

Manuscript Writing procedure

1. Article title size 14, bold (*bold*), *Align Center*, single Space, short, clear, solid and precise, describing the results of the study to be communicated.

2. Author's name without academic degree, size of letter 11, bold print

Follow below with an affiliate, size 10 letters, italics, with full address for correspondence, including phone, fax and e-mail.

3. Abstract in English, maximum 250 words, 9 letter size, single spacing. The abstract is written in full to illustrate the essence of the manuscript and contain all keywords

4. Keywords up to 10 words, font size 8, italics arranged alphabetically from left to right.

The report Body is displayed with the justification format (*rata left*), size of letter 11. Citation in text according to *Author-year system*.

In full, the body of the study report contains the following elements:

Articles of research results include: introduction, materials and methods, results and discussion, conclusion, thank you (if necessary), and bibliography (if any).

Review article (*review*) contains: Introduction, the Fundamentals of the mind used as analysis material

1. The introduction is written efficiently and describes the background, objectives and libraries that support

2. Materials and methods (Results of research) are written in complete and detailed so that the research is very possible repeated by other researchers, especially matters concerning materials, withdrawal samples, procedures, design research and data processing

3. Results and discussions containing the results obtained and the interpretation associated with the previous research results

4. Conclusions are written in a concise manner and describe the substance the research results obtained

5. Table, has a solid in the text, the size of the letter 10.

- a. The Table must provide clear, intact and independent information (clearly readable even without text).
- b. Capital letters are only used at the beginning of the first word title, placed above the table and give the sequence number.
- c. The separator line is made in horizontal form (flat) consists of 3 lines of two at the top (column headings) and one in the table cover and not allowed to use vertical lines.
- d. Writing the caption significance data statistically using the sentence "different superscript on the same row/column shows different real/very real ($P < 0.05$)/($P < 0.01$).
- e. Each abbreviation used in table is always given caption below Table.
- f. Data in manuscript must be completed with Standard Deviation (SD), Standard Error (SE) or Coefficient Variation (CV).

Example table:

Table 3. The effect of processing and the length of feed storage for water content (%)

Processing process	Storage time (weeks)				Wit A
	0	2	4	6	
A0	13.20 ^a	14.91 ^C	13.34 ^a	13.29 ^a	13.69 ^a
A1	14.32 ^b	14.21 ^b	13.16 ^a	13.13 ^a	13.71 ^a
A2	15.49 ^D	15.33 ^D	13.41 ^a	13.47 ^a	14.42 ^b
The B	14.34 ^b	14.82 ^C	13.30 ^a	13.30 ^a	

Description: Different superscripts on different rows or columns show very noticeable different influences ($P < 0.01$)

A0 = no Treatment

A1 = Steaming for 45 minutes

A2 = Spraying 5% hot water

6. Figure and graphics

- a. The figure and the chart have been solid in the text, the font size 10.
- b. Capital letters are used only at the beginning of the first word title, placed below the image and number.
- c. Image and chart size must be clearly readable if the size is shrink up to 50%.
- d. A column-shaped chart is created in 2-dimensional form with the fill in the form of an interpretation and not a solid or block color.

7. **Latin** Nomenclature 2 or 3 words (italicized) are used for plants, animals, insects, microorganisms and diseases. The full name of chemistry is used for compounding the first mention. Common or generic names can also be used.

8. **International system (IS) measurement Unit**

9. **The writing of decimal numbers** in table Form for Bahasa Indonesia is separated by comma (,) for English with period (.)

10. **The Library**

- a. The bibliography is sorted alphabetically, font size 10.
- b. The manuscript that is in preparation or has been sent (*submitted*) for publication, unpublished observation, personal communication and so forth is not included in the list of libraries but only referenced in the text (author, year).
- c. Quoting libraries from the Internet are only allowed from accountable sources, such as journals, governmental or private agencies. Writing libraries from the Internet to list the data retrieval date.
- d. The bibliography contains the name of the author referring to the script, compiled alphabetically by the author and year of publication.
 - Writing a library of books is listed all the author's name, year, book title, publisher and the city of the place of publication.
 - The writing of a journal is listed in the author's name, year, title of writing, journal name, volume, publication number and page.
 - Articles in the book are listed author name, year, title of writing, editor, book title, publisher and place.
